

Global PPE service and rental

STENNEVAD
Protects You at work

PROTECTS YOU AT WORK

STENNEVAD

Trusted PPE partner

Stennevad is your go to partner when it's a matter of Personal Protective Equipment. With more than 64 years of experience, our knowledge and level of service has grown tremendously. From our base in Esbjerg, Denmark, we deal with all our customers both internationally and nationally. We have the capability to advise and equip correctly with the gear that you and your colleagues need in your daily work assignments. With sales, service and approved certification of fall protection etc.

We are innovative and always ready to develop, among other things through ongoing dialogues with our customers and business partners in relation to the challenges they face and what is happening in a current industry.

We help you with the right solution

If you are interested in learning more about our products and collaboration opportunities, you are always welcome to contact us. We focus on finding the perfect solution for you, your colleagues, and your employees, ensuring you always have the optimal setup for your work. So don't hesitate to contact us – we are here to help you.

PPE Rental Service

Stennevad offers a new concept where we simplify handling of PPE with rental service.

We take care of all the time consuming issues such as:

- Registration
- Service
- Logistics
- Maintenance
- Handling of certificates

We help reduce cost because you don't need to make big investments, when you start on a project. You also avoid having equipment which is not being used. Furthermore we provide equipment when your own equipment needs service. We have several years of experience when it comes to rules and regulations both regionally and nationally regarding standards and service intervals.

As a customer you will have access to our database. That way you can see all your equipment, all registered users, where everything is and when service time is.

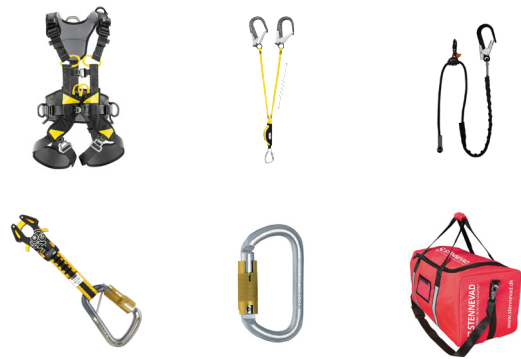

These advantages are present renting short-term and long-term.

We also provide products for Rope Access. Please contact us to hear more.

Set 1 - Offshore bag

Set adapted to the wind industry, techniques, service teams, etc. Includes the most requested and accepted parts (however, there may be regional requirements in different countries). Note that sliders must be ordered separately, and information about the service interval should be provided.

- Harness (size S/M-2XL)
- MGO Y-line
- Adjustable support line
- Frog offshore connector
- Triple lock carabiners (2 pcs)

Set 2 - Survival bag

Set adapted to the requirements in the wind industry for transfer to offshore wind turbines (however, there may be regional requirements in different countries).

- Survival suit (size M-2XL)
- PLB
- Lifejacket (SOLAS approved)

Set 3 - Evacuation unit

Can be used for rescue/self-evacuation at heights of up to 150 meters - approved for up to 3 people or 285 kg. Note that other lengths can be provided.

- Evacuation unit
- 150 m rope
- 100 cm webbing sling
- Edge protector

Loose parts

Rented individually.
